## Getting to Know Your Tablet

## Insert a SIM card

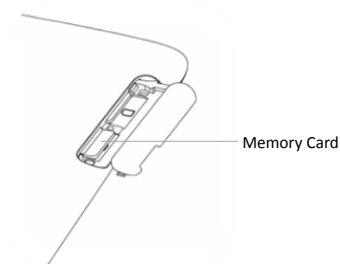

1. Open the SIM slot cover
2. Insert micro-SIM card(3FF) into the slot then replace the cover.

Note: The tablet supports micro-SIM cards only. Do not place the micro-SIM card in the memory card slot.

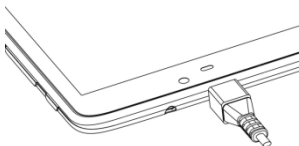

## Inserting a memory card

1. Pull the card cover out with your fingers.
2. Insert memory card into the slot, then put the card cover back.

## Charge the Battery

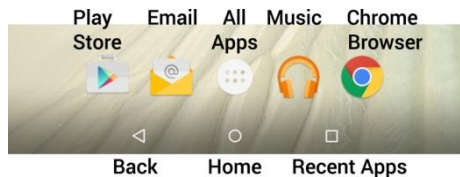

Connect the charger to the phone using a USB cable. Plug the charger into a standard power outlet.

## Onscreen Icons

Icons	Descriptions	Icons	Descriptions
	Signal strength		Uploading data
	Charging		Airplane mode
	Connected to a PC		Alarm clock on
	Vibration mode		Silent mode
	Wi-Fi function on		Bluetooth <sup>®</sup> is on

## Navigation Overview

Pull down from the top of the screen to access Notifications, and pull down twice to access the Quick Settings panel and find the shortcut to **Settings**.

## Connect to a Computer

Transfer music and picture files by connecting to a PC or MAC using the USB lead supplied.

Pull down the notifications panel select Media Device (MTP).

Browse your device on the computer.

MAC users need to download Android File Transfer for MAC which is available from [android.com](http://android.com)

## Add a Google Account

Step through the Wizard or go to Play Store to add a Google (Gmail) account to download apps for your device.

## Using Apps

Press the All Apps key to view the built in Apps. Most apps are provided by Google or are Android default apps. Press the three dots for Options within each app.

## Notes

For general use of the Android operating system you can find resources on line.
